

Update: Free Medical Assistance coverage at Blue Diamond Resorts properties extended

June 14, 2021

Keeping our promise to provide Safety-Assured Vacations to our valued guests and to ensure they feel safe and confident when traveling to our destinations once again, we are happy to inform you that we have decided to extend our **Free Medical Assistance coverage** program until **August 31, 2021**. This applies to all guests traveling to any of our destinations from the United States and is in addition to the extension of Blue Diamond Resorts' already existing free on-site COVID-19 viral testing program.

All-In Medical Assistance

Thanks to our partnership with MAS Services, all guests arriving from the United States can benefit from extended medical assistance coverage to cover the cost of any accidents or illness, including COVID-19 related medical needs while on vacation. Coverage can be shared by up to four travelers and includes, but is not limited to, medical assistance for accidents, outpatient medication, emergency medical transportation, assistance with locating lost or stolen luggage, 24-hour legal assistance, travel disruption, and more. [Click here](#) to learn more and register.

Viral Antigen Testing

Free on-site COVID-19 viral testing remains until December 31, 2021 for guests traveling by air from the United States to Cancun, Punta Cana, Costa Rica, and Jamaica. This benefit has also been extended to guests traveling to Antigua until June 30, 2021. Note that reservations require a 3-night minimum length of stay to receive this service free of charge in Cancun, Costa Rica, Jamaica, and Antigua. Punta Cana does not currently require a minimum length of stay.

This procedure will be carried out by a medical professional in a designated area of the resort, and we strongly encourage guests to schedule their appointment upon arrival to the property through our Guest Services team due to high demand. Test results will be available same day and delivered to the guest's room or available at the Front Desk.

For guests arriving to Saint Lucia, the viral antigen testing is available on property at an extra cost.

Disclaimer: COVID-19 viral testing is a third-party service provided by a certified local lab in alliance with our in-house doctors. Blue Diamond Resorts will not accept responsibility for any disputes related to the use of this service. The use of this service is at the complete discretion of the guest and guests will always have the option to visit any local clinic to take the test on their own.

The safety of our guests and employees are our top priority and it is our promise that we will continue to share up-to-date information as it becomes available. To learn more about our Safety-Assured Vacations protocols and download the complete guide, please [click here](#).

Kind Regards,
Blue Diamond Resorts
